

LIGHTBOX 4.6

Light Box is a limitless opportunity to design with light. Using aluminum frames with fabric diffusing medium, Light Box allows the bespoke creation of illuminated geometric shapes in small—to large-scale sizes.

Light Box can be surface mounted, recessed, or suspended as elements of architectural embellishment and for ambient illumination.

Choose mounting type, LED Type(choice of 2700K, 3000K, 3500K, 4000K, Tunable White 2700K-4000K, 3000K RGBW, or 4000K RGBW), and Dimming (0-10V, DMX), and specify overall dimensions. Aluminum frames are offered in aluminum, painted white, or black finishes.

Seamless fabrics are offered up to 12' wide and 50' long, Seamed fabrics can be larger. The standard fabric is white for optimal diffusion, and custom printing options are available. Insect screens are available.

Dimming Type

LightBox is compatible with the following dimming systems

0-10V
DMX

Dimensions

Lightbox dimensions are custom specified.
To begin, select from straight or curved depth/heights:

4.6-4.6"

Then specify width and overall length.

Seamless fabric diffusers can up to 12' wide and 50' long.
Larger sizes are available with seams.

Fabric Diffuser

Lightbox's smooth white fabric diffusers provides even diffusion and distribution of white and RGB LED illumination.

Seamless panels are available in sizes up to 12' wide x 50' long.

Fabric Optional

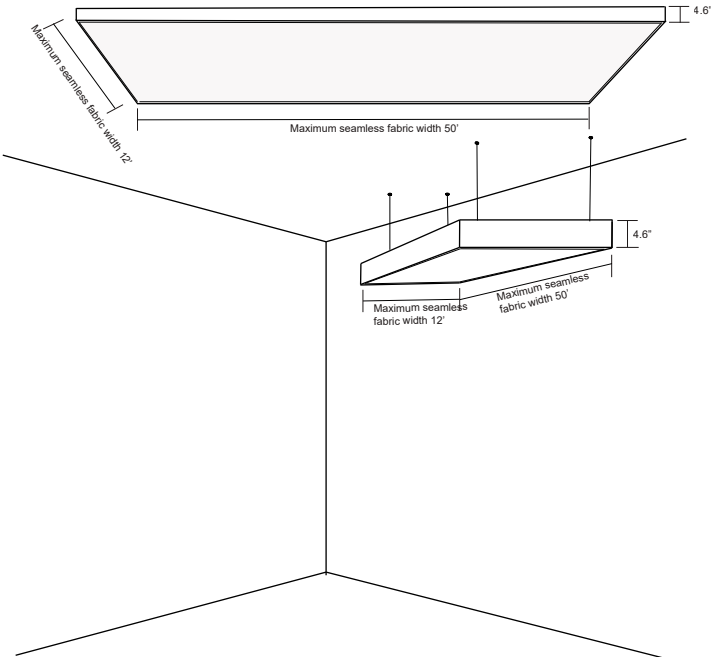

Optional insect screens are offered, these help insure fixtures stay clean and stay in optimal operating shape.

Custom printed panels are available, with client provided artwork.
